

## Product Safety Data Sheet

### 1. Identification of the Substance/Formulation and Company

Product Name : **Nebar Blue**

Supplier : **Tiflex Limited**  
Treburgie Water  
Dobwalls, Liskeard  
Cornwall, PL14 4NB  
Tel: +44(0)1579 320808  
Fax: +44(0)1579 320802

### 2. Composition / Information on Ingredients

Nebar Blue is a vulcanised material based on acrylonitrile butadiene rubber with mineral fillers and cork granules.

### 3. Hazards Identification

The product does not present any health hazards in normal use.  
If product is machine cut some heat may be generated and if temperature exceeds 150°C some fumage may be expected - adequate ventilation should be provided. Above 300°C the product will show some decomposition.

### 4. First Aid Measures

Eye contact : Flush with clean water. Seek medical attention if necessary.

Skin contact : After handling the product wash with soap and water, particularly before eating or drinking.

Inhalation : Not a hazard in normal conditions of use. If affected by machining dust or fumes, remove to fresh air. Seek medical attention if necessary.

Ingestion : Unlikely to occur.

### 5. Fire-Fighting Measures

Use water, foam, CO<sub>2</sub> or dry powder.  
Wear self contained breathing apparatus as some toxic fumage will be produced in a fire.

### 6. Accidental Release Measures

All scrap material can be collected and disposed of as factory waste.  
No special procedures are necessary.

### 7. Handling and Storage

Store in a cool, dry place, away from direct sunlight.  
Handle with reasonable care to avoid physical damage to the material.

### 8. Exposure Controls / Personal Protection

No protective equipment is needed during normal handling and use and the product does not present a health hazard if reasonable standards of industrial hygiene are observed. If handling the material for long periods, suitable protective gloves are advisable.  
If machining produces dust or fumage, suitable respiratory protection should be used.

Product Name :

## Nebar Blue

### 9. Physical and Chemical Properties

Appearance : Blue coloured sheets

Solubility in water : Insoluble

### 10. Stability and Reactivity

#### Thermal decomposition :

Stable under normal conditions of storage, handling and use, but will be liable to decomposition if involved in a fire or if heated above 300°C, when some toxic fumes will be produced.

Suitable precautions should be taken to avoid inhaling decomposition fumes.

#### Materials to avoid :

No specific recommendations.

### 11. Toxicological Information

No data available.

### 12. Ecological Information

No data available.

### 13. Disposal Considerations

The product is not classified as a special waste.

It can be disposed of as ordinary factory waste, by landfill or controlled incineration.

National and local disposal regulations must be complied with.

### 14. Transport Information

Not regulated for transport purposes.

### 15. Regulatory Information

Hazard symbols : None

Risk phrases : None

### 16. Other Information

The purpose of this information is to describe the product only in terms of health and safety requirements.

We believe the information is correct and it is given in good faith, but without warranty.

Customers should satisfy themselves as to the suitability and completeness of the information for their own particular use of the product.
